

2nd International Women's Conference Wednesday 16 March 2016 | UNESCO House, Paris

A message from the President of ArbitralWomen, Rashda Rana SC, FCI Arb

"There are only a handful of international events in any one year which deal specifically with women in dispute resolution.

"I am very pleased that ArbitralWomen is holding its second international conference to explore the ways in which we can achieve our goals and what the different players in the industry can contribute to the process of achieving equality and diversity.

"Greater diversity in the delegates attending will go a long way to ensuring that diversity is recognised in everything we do.

"I urge as many people from all sections of dispute resolution to attend the Conference and have their voices heard. I am looking forward to welcoming them all to what promises to be a very exciting event."
