

KLRCAC SUMMER ACADEMY

ON INTERNATIONAL INVESTMENT
LAW AND DISPUTE SETTLEMENT

Knowledge sharing and capacity building is a cornerstone of KLRCAC's policy with regard to investment arbitration. The KLRCAC commonly shares with various players, eclectic types of resources and expertise, and cultivates with them a dynamic information and discussion platform through seminars, conferences and numerous events.

Following the success of its first International Investment Arbitration Conference (KIIAC 2016) – the biggest ever held in Asia – in March 2016, the KLRCAC is proud to organise the first KLRCAC Summer Academy on International Investment Law and Dispute Settlement (the "Academy"). We are happy to announce that Clifford Chance (Singapore) is the official partner of the Academy. The KLRCAC is delighted to partner with Clifford Chance's experienced team with the view to promoting investment protection and investment law in the region.

The Academy will run from 25 to 29 July 2016 and is designed for government officials, lawyers, specialists, practitioners, professors, researchers and students. More specifically, it intends to provide participants with the essential theoretical and practical skills to understand and deal with investment disputes under bilateral and multilateral investment treaties.

The work of the Summer Academy will serve to develop research, complement academic education and promote dialogue between the academic and business worlds. In courses, seminars, workshops, particular importance is to be attached to ensuring that participants are aware of the rights and obligations under bilateral and multilateral investment treaties and are able to make full use of the opportunities for access to the dispute settlement procedures. The Academy entails an intensive one week course of study, with lectures by leading practitioners and experts from around the world.

The Academy will provide ample opportunities to engage in discussions and exchange ideas with experts and fellow participants working in the same field.
